

Commport Internet EDI Capabilities

Commport's Internet EDI Solution is a fully capable EDI system which includes:

- Management capabilities for hundreds of trading partners
- MH10 shipping labels
- Access to a dedicated, experienced and knowledgeable service team
- Proactive notification email alerts
- Business rule validations
- Duplicate checking
- Access to Commport's visibility tool, RouterLiNK
- Reports for all inbound transactions
- Retrievable archive
- Document import and export to enable partial integration

Handles virtually any standard business document including:

- Purchase Orders (850)
- Invoices (810) and Credits (812)
- Advanced Ship Notices – ASNs (856)
- Remittance Advices (820)
- Text Messages (864)
- Purchase Order Changes (860) and Acknowledgements (855)
- Planning Schedules (830)
- Functional Acknowledgements (997)
- And more!

With Commport's Internet EDI, you get all of the benefits from EDI without any of the headaches. No software to install, no limit to the trading partners or transaction types available, easy access through the use of an Internet browser and all at a cost that you can afford. What could be easier?
