STEPS TO SYNCHRONIZE GDSN DATA WITH BARTELL DRUGS

BARTELL DRUGS

1. Review the community enablement implementation guide for product content requirements.
2. Complete the Trading Partner Form located at www.commport.com/bartell-drugs with your details:
 - Data Source GLN
 - GDSN Primary contact information
 - Current Datapool
3. Load all your Bartell Drugs items, and all GTIN levels, containing all the Bartell Drugs required attributes into your GDSN data pool catalog.
4. Publish your GDSN items to Bartell Drugs as “Initial Load”. Please contact cgssupport@commport.com at any time if you have questions or need assistance.
5. **Bartell Drugs GLN: 0095447000003**
6. Bartell Drugs will review your item data received and send the Catalogue Item Confirmation (CIC) message as follows:
 - A CIC with the state of “ACCEPT” will automatically be sent when publication is received and the data passes initial attribute validations
 - A CIC with the state of “REVIEW” will be sent if there are missing attributes or data discrepancies with details of the issue(s):
 - Review the message, make the corrections and publish the corrections to Bartell Drugs
 - A CIC with the state of “SYNCHRONIZED” will be sent after Bartell Drugs has processed the item data
 - A CIC with the state of “REJECT” will be sent if the published item is not wanted by Bartell Drugs
7. Changes/Deletions/ New Items: As your products change and grow, continue to send the changes, new items, corrections and any deletion notifications for these products. This will ensure Bartell Drugs will receive your latest information on a daily basis.
