

Dear Suppliers:

Re: Medical Device Product Data to PHSA through GDSN

PHSA is excited to announce that we have recently partnered with Commport as our Global Data Synchronization Network® (GDSN) - certified data pool. As you are aware, the GDSN is an authoritative source of standardized product information.

Your organization has been identified as already publishing items and attributes via the Global Data Synchronization Network (GDSN). Therefore, you are an ideal candidate to implement Global Data Synchronization with PHSA. Since your company is already actively communicating via the GDSN, we request that you publish ALL of your product data to PHSA GLN 7540128000023. Please notify Commport when you have completed your publication so we can verify receipt of the data.

Thank you for your continued support and participation in this valuable data-sharing initiative. Should you have any questions or concerns, please contact Mike Dunbar MikeD@commport.com

Sincerely,

A handwritten signature in black ink, appearing to read 'DLoukras', is positioned below the word 'Sincerely,'. The signature is fluid and cursive, with a long horizontal stroke extending to the right.

David Loukras
Provincial Director, Supply Chain Performance
