Commport Communications International Inc.
SUPPORTS SOUTHLAKE REGIONAL HEALTH CENTRE

On behalf of Southlake Regional Health Centre Foundation, I would like to thank you for your interest in helping us provide leading edge care close to home by **Commport Communications International Inc.'s** fundraising efforts in lieu of the **Annual Charity Golf Tournament**.

Commport Communication's Fundraising is directing proceeds to Southlake's Stronach Regional Cancer Centre – a full-service facility offering a wide-range of cancer services including: screening, assessment, surgery, chemotherapy, psycho-social and palliative care, clinical trials and radiation treatment. Events such as this, that encourage the support of so many, have been essential in helping to ensure that Southlake is able to provide comprehensive cancer services close to home for our patients.

Your generous support today will help the organizers maximize the earning potential for their fundraising event and, in turn, help to ensure that Southlake Regional Health Centre continues to deliver the world-class care that our community has come to expect.

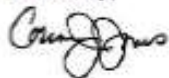

Southlake is supported by individuals, a myriad of community service organizations, private foundations, local businesses, national corporations and of course, community events. We are so thankful for the generosity and the loyalty of our supporters.

By supporting **Commport Communications's Fundraising** you will help make a difference for the thousands of patients served by Southlake Regional Health Centre's Stronach Regional Cancer Centre every year.

This letter will serve as your acknowledgement of support for Southlake. Please retain this letter and attach to it, any corresponding documentation that identifies your support. Documentation should indicate the service/item (or sponsorship type) donated, as well as the dollar value.

If you have any questions or are interested in supporting this fundraising event, kindly contact Tammy Durbano, the event organizer directly.

Sincerely,

Corinna Jones
Community Events Officer
